

- Feed size up to 700 mm (28")
- Independent double deck vibrating pre-screen 2.300 x 1.000 mm (8' x 3')
- Feed opening 1.150 x 800 mm (45" x 31")
- C.S.S min. - max. 55 - 215 mm (2"-8")
- Capacity up to 420 tonnes / hour
- Heavy duty quarry machine
- Intake hopper 5 m³
- Smart sequential auto start/stop from remote
- Ability to track while producing
- Hydraulic gap adjustment to safely prevent clogging

Applications

- Granite, Basalt and most medium and hard stone
- Concrete and landfill recycling
- Primary crushing
- Construction waste
- Demolition
- Quarrying and mining
- Gravel
- Coal, slag and others

	Transport Dimensions	Working Dimensions
