

- Most compact 3 deck classifier in the industry, for low regulated markets
- Tripple deck screen box 3.600 x 1.200 mm (12' x 3'')
- 4,2 m² screening surface on top 2 decks, 3,4 m² on bottom deck
- Capacity up to 200 tonnes / hour
- Feed hopper 5 m³
- Low emission engine

Applications

- Quarrying 0-4, 4-8, 8-16, 16-32 and others as specified
- Sand and gravel
- Separation of aggregate
- Construction and demolition
- Screening behind a crusher
- Coal and others

	Transport Dimensions	Working Dimensions
Weight	15 t (16 sT)	
Length	12.800 mm (41'12'')	12.330 mm (40'5'')
Height	3.200 mm (10'6'')	4.200 mm (13'9'')
Width	3.200 mm (10'6'')	14.800 mm (48'7'')
